[Instructions]

Please review your solution for the programming & test phase exercise based on the following points. After review, revise & update your solutions as necessary, and re-submit them along with this check-sheet.

■ Source Code

No	Check Points
1	All necessary classes have been implemented: RecordProcurementPanel.java ProcurementControl.java
	Check & Revisions
	OK
2	In the InitMenu, when the “Open Record Procurement Panel” button is clicked, “Record Procurement Panel” is displayed.
	Check & Revisions
	OK
3	In the InitMenu, when the “Exit” button is clicked, the program quits.
	Check & Revisions
	OK
4	In the RecordProcurementPanel, when a valid procurement id, staff code, material code, or amount is input, a relevant staff name, material name is displayed, and a corresponding status message reporting success is displayed.
	Check & Revisions
	It was corrected because ProcessStatusMessage was not displayed when recording was successful.

Introduction to Software Engineering Ex14 Self-Check-Sheet

5	In RecordProcurementPanel, when an invalid staff code, material code, or amount is input, corresponding error message is displayed for staff code, material code, or amount.
	Check & Revisions
	OK
6	Programmed the classes and their relations according to the “Class Diagram”, “Class Definition”, and “Sequence Diagram”.
	Check & Revisions
	OK
7	Analyzed the classes that were already implemented, and verified that they correspond to the definitions in the “Class Definition” and “Sequence Diagram”.
	Check & Revisions
	OK
